About Awards: ScienceFather takes the privilege to awarding the Industries, Academicians, Researchers, Scientist, and Regulators from Science, Health and Medical fields across the globe to its International Events. Global Network & Technology Conference is an annual gathering. This Event is a unique international platform that's a meeting of all Researchers. We look forward to personally welcoming all the award winners.

Objectives: Global Network & Technology Conference International Events is awarding high quality Researchers in different subfields. The purpose of award ceremonies and assemblies is to celebrate researcher achievements and motivate them to continue on their path. The Good researchers are more motivated to succeed in their research field. People want to be respected and valued by others for their contribution. Offer the opportunity to be updated on the latest research outputs on several topics. Organize specific workshops around the most attractive and current issues. Gather worldwide experts as Event speakers.

Key Features and Excellent Venue | Inspiring Speakers | Certificate |Medal | Memento | Stage Photograph | Awardees listed on website.

Award Categories: Young Scientist Award | Best Researcher Award | Women Researcher Award | Best Innovation Award | Best Faculty Award | Best Scholar Award. Institute/ Organization Awards: Excellence in Innovation | Excellence in Research| Excellence Award (Any Scientific field) | Best Research /Innovation Extension activity.

Topics of Award Subjects include, but are not limited to : Communication Network Protocols | New Design Contributions on All Protocol Layers Except the Physical Layer | Considering All Types of Networks Mentioned Above and their Performance Evaluation; Novel Protocols | IoT Networking | Next-Gen Comms | Cloud Networking | SDN Innovations | Mobile Networks | Network Optimization | Methods and Algorithms Related to, e.g., Medium Access Control | Error Control | Routing | Network Protocols | Resource Discovery | Multicasting, Congestion and Flow Control | AI in Networking | Multimedia Systems | Blockchain in Comms | Social Media & Networks | Big Data Analysis | Cyber-Physical Systems | Scheduling | Multimedia quality of Service | as well as Protocol Specification | Testing and Verification and also Communication Network Architectures | Network Services and Applications | Network Security and Privacy | Network Operation and Management | Discrete Algorithms and Discrete Modelling | Wireless Tech | Energy-Efficient Networking | Quantum Comms | Edge & Fog Computing | Communication Theory | Sensor Networks | Green Networking | Agri-Tech Apps | Performance Analysis | Network Virtualization | Emerging Trends
